Continuing Professional Development (CPD) is a combination of approaches, ideas and techniques that will help you manage your own learning and growth. The focus of CPD is firmly on results – the benefits that professional development can bring you in the real world. Perhaps the most important message is that one size doesn't fit all.

Enhancing Participant Engagement in ... - CIPD Learning shop
A learning and development (L&D) strategy sets out the workforce capabilities, skills and competencies the organisation needs, and how they can be developed to ensure a sustainable, successful organisation. Our research has emphasised the importance of strategic human resource management aligning to the overall business strategy.

Learning & Development Strategy and Policy | Factsheets | CIPD
Learning and development is a key Human Resource function that is very significant in promoting the means through which the employees survive within the organisation. Learning is a concept that is associated with the development of skills among the employees within the places of work for purposes of improving their competency.

CIPD Level 5UIN Assignment Examples | CIPD Modules Help
Learning outcomes describe observable behaviours and actions, invisible activity may well be vitally important but we can only assess how the invisible becomes, or impacts on, observable actions. There should be a clear link between learning outcomes and assessment and a learning outcome should not be included if it is not possible to assess it. Ensure the learning outcome can reasonably be accomplished within the timescale of the module or course and the resources available.
